

A diagram showing a 4x5 grid of cells. The grid is defined by a thick black border. The horizontal axis is labeled 'x' at the bottom left, and the vertical axis is labeled 'y' at the top left. The grid is divided into four columns and five rows. The first column is the widest, followed by the second, third, and fourth columns which are of decreasing width. The first row is the tallest, followed by the second, third, and fourth rows which are of decreasing height. The grid is empty, with no data or text inside the cells.
